LITTLE ROCK SCHOOL DISTRICT
FACULTY DESEGREGATION
1969-70

The Little Rock Public Schools will assign and reassign teachers for the 1969-70 school year to achieve the following:

1. The number of Negro teachers within each school of the district will range from a minimum of 15% to a maximum of 45%.

2. The number of white teachers within each school of the district will range from a minimum of 55% to a maximum of 85%.

Application of the above regulations to incumbent personnel would result in the following faculty assignments for 1969-70. However, loss of incumbent personnel through normal attrition and resignations due to these proposed reassignments, and the resulting necessity to employ replacement personnel, make it impossible to make a precise estimate of the faculty assignments by race for 1969-70 at this time.

LITTLE ROCK SCHOOL DISTRICT
STUDENT DESEGREGATION - 1969-70

The Little Rock School District will be divided into geographic attendance zones for elementary, junior high, and senior high schools as indicated on the accompanying map. The distribution of students according to race will be approximately that indicated in Tables I, II, and III.

TABLE I
